

DESIGNED BY CHUN YAU

THE INTERSECTION OF
TECHNOLOGY AND MUSIC

RASPERRI PI ANIMATED MUSIC

ABOUT THE DESIGN

MODE

1. FORWARD

2. BACKWARD

3. IN OUT

SPECIAL MODE

4. THE ANIMATED GOLDEN HOUR

SONG:

GOLDEN HOUR - BY JVKE

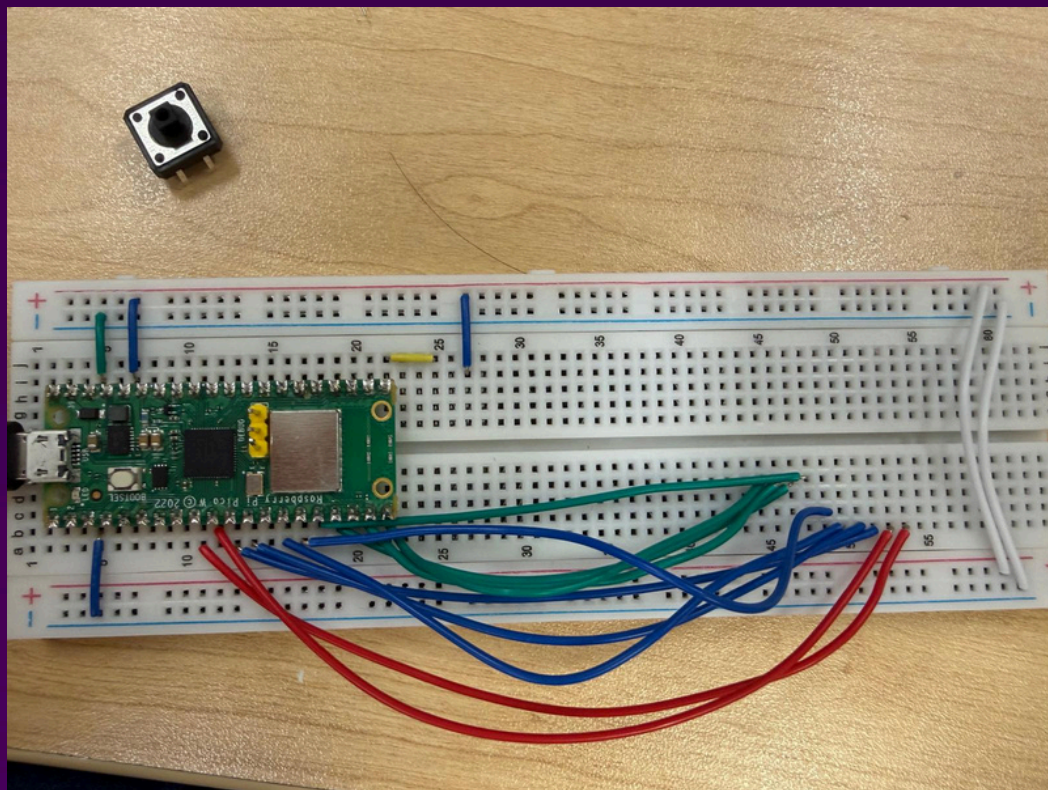

THE INSPIRATION OF SPECIAL MODE

INSPIRED BY THE PLAYBACK ANIMATION DESIGN OF DYNAMIC ISLAND BY APPLE, I WANT TO PRESENT THE MUSIC THAT NOT ONLY FOR HEARING BUT ALSO SEEING THE MUSIC RHYTHM.

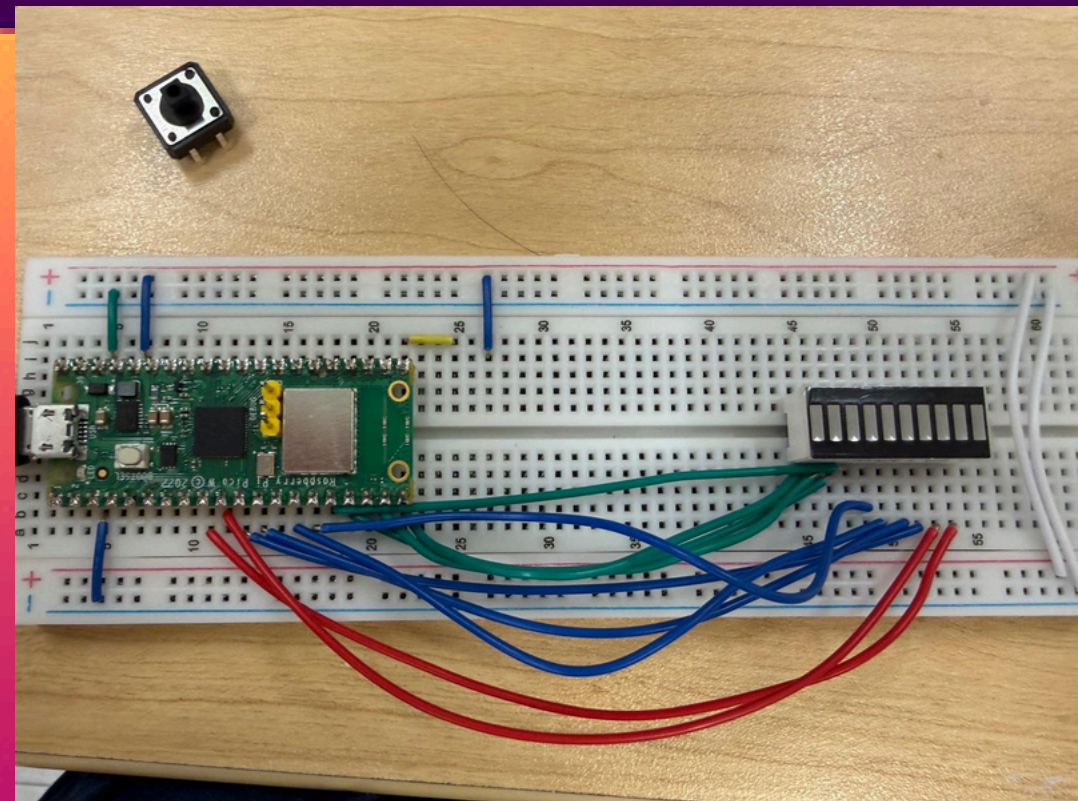

RASPBERRY PI ALLOWS ME TO CREATE A DIGITAL ART FORM OF MUSIC IN A SPECIAL WAY.

THIS IS A NEW WAY OF MUSIC ART APPRECIATION

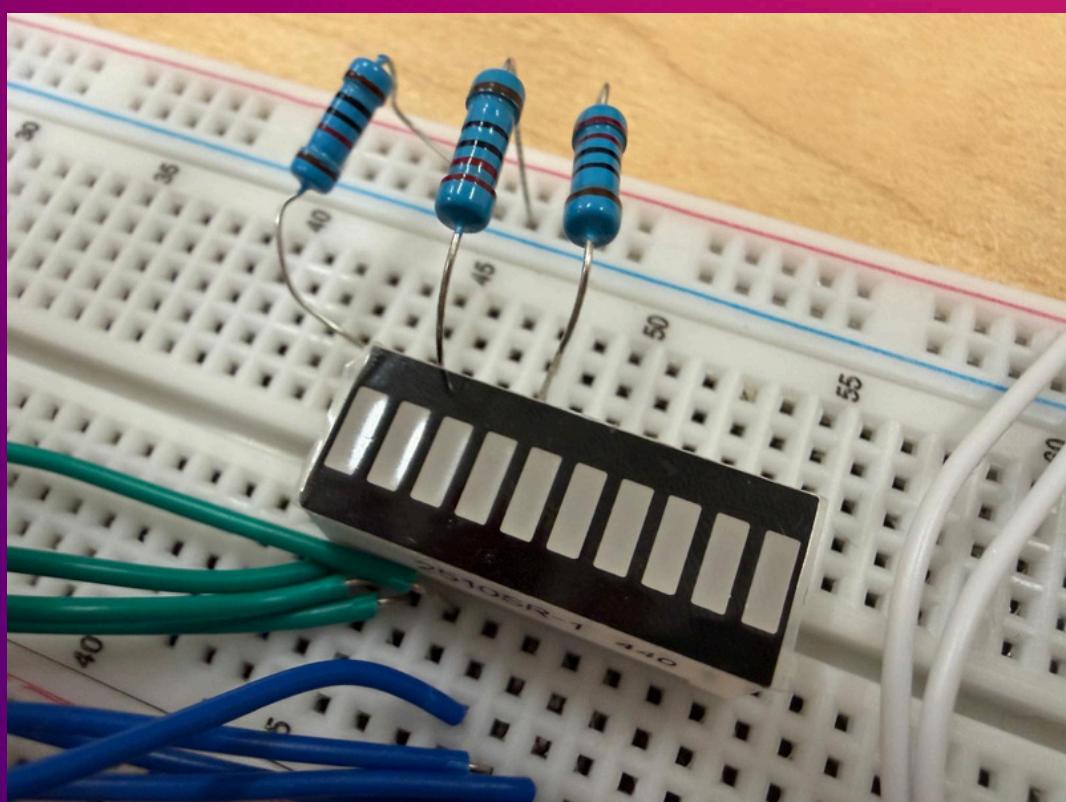

HOW I MAKE IT

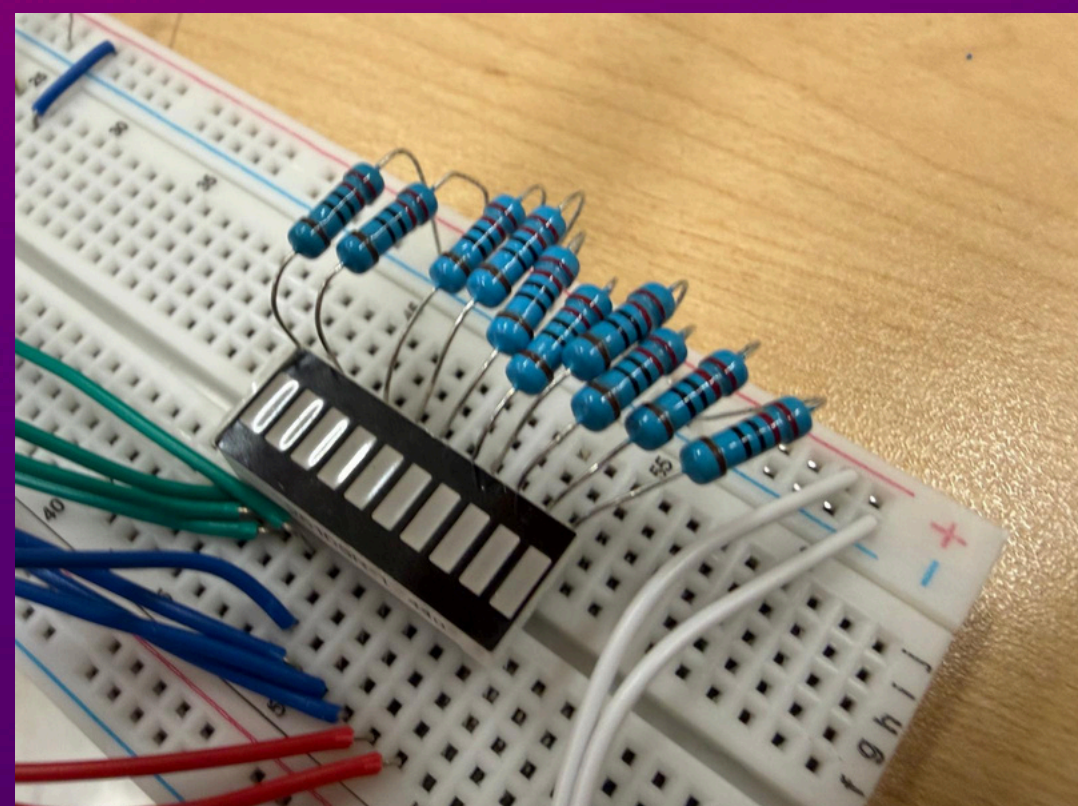

CONNECTING THE WIRE

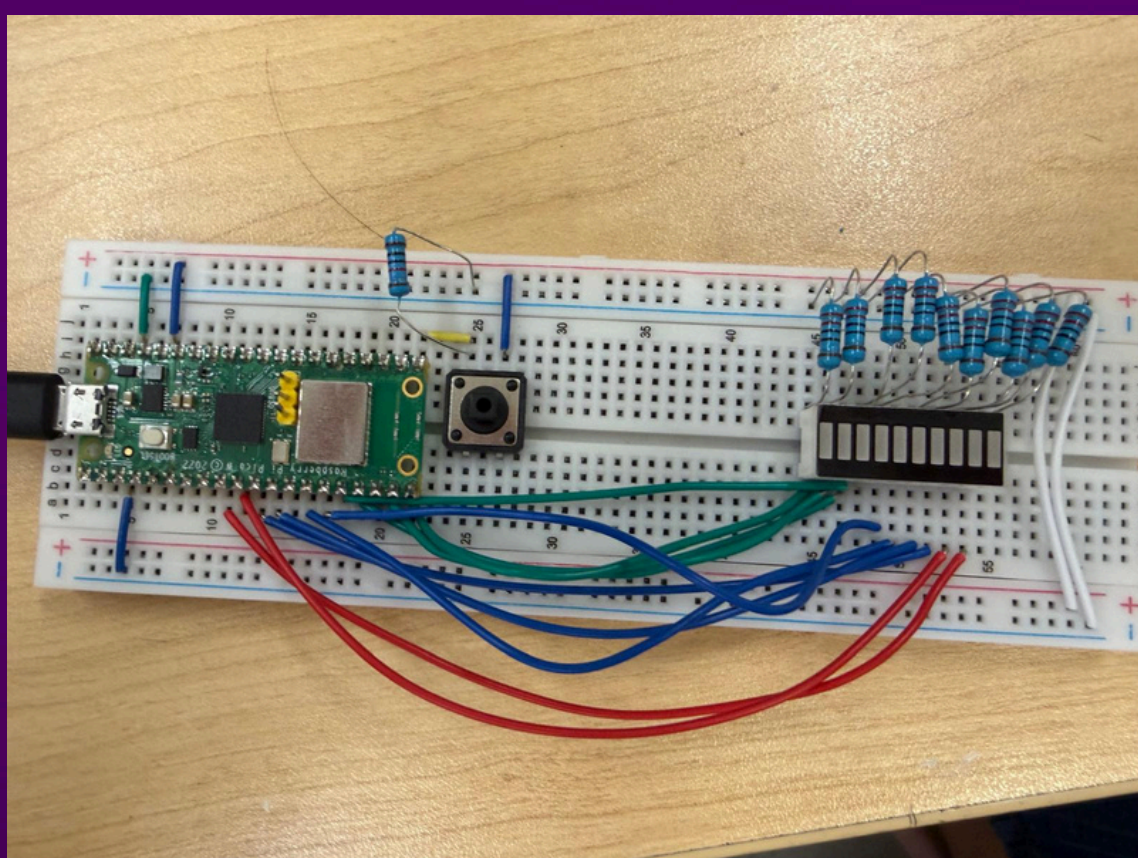

HOOK UP YOUR LED BAR GRAPH

HOOK UP RESISTORS

ALL RESISTOR IMPLEMENTED!

DONE!

MY OBSERVATION

BUILDING A CUSTOM DEVICE WITH MY IDEA IS VERY FUN. THE PINS ON THE RASPBERRI PI ALLOWS ME TO EXPLORE THE POSSIBILITY OF CREATIVITY CAN BE IMPLEMENT IN A DIGITAL WORLD. THIS DEVICE USES THE MOST EASIEST-TO-LEARN LANGUAGE IN THE WORLD - PYTHON, MAKING A BEGINNER LEVEL SOFTWARE ENGINEERING STUDENT TO APPLY ANY IDEAS.

CREATIVITY NEVER ENDS. AS A COMPUTER SCIENCE STUDENT, THE WORLD IS WAITING FOR US TO MAKE GREAT IMPACT ON PEOPLES LIFE, NOT ONLY IN ART FORM, BUT ALSO SOME MEANINGFUL INSPIRATION TO THE NEEDY.

THANK YOU FOR REVIEWING MY PROJECT
